

Compound Fertilizers and Micronutrients

Ref: Fertilizers | 75 pages | 2021

Author: Eng. Khaled Mahmoud | Dr. Rania Fathy

Faculty of Agriculture - Ain Shams University

About This Document

A comprehensive reference for compound fertilizers and micronutrient nutrition in modern agriculture, with recommendations for correcting deficiencies.

Topics covered:

- NPK compound formulations (15-15-15, 20-20-20, etc.)
- Iron chelates (EDTA-Fe, EDDHA-Fe)
- Zinc, Manganese, Copper, Boron
- Deficiency symptoms and diagnosis
- Foliar vs. soil application
- Fertigation and drip irrigation

Keywords:

NPK

Micronutrients

Iron

Zinc

Manganese

Boron
